TARUSH BAJPAI

Lucknow, Uttar Pradesh, India
tarushbajpai@gmail.com | linkedin.com/in/tarush-bajpai | github.com/TarushBajpai | leetcode.com/tarush_bajpai

TECHNICAL SKILLS

Languages: Java, Python, JavaScript
Web Development: Django, HTML, CSS, Bootstrap
Database: SQL, SQLite
Tools: Git, GitHub, VS Code, IntelliJ IDEA
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Computer Networks

EDUCATION

B.Tech Computer Science and Engineering

Babu Banarasi Das Northern India Institute of Technology (AKTU) | CGPA: 8.1 | 2023-2027
Class XII: 84.2% | **Class X:** 85.83%

PROJECTS

Deep Packet Inspection Engine — Java

Technologies: Java, OOP, Computer Networks

Built a Java-based packet inspection engine that reads PCAP files and processes multiple raw network packets as byte arrays.

- Implemented modular parsing for Ethernet and IPv4 headers, extracting MAC addresses, IP addresses, protocol information and packet metadata.
- Implemented TCP parsing with source/destination ports, sequence and acknowledgment numbers, TCP flags and dynamic header offsets.
- Added protocol detection and HTTP payload parsing to identify application protocols and extract HTTP request details such as method, path, HTTP version and host.

Mine Nutrition World — Django E-commerce Website

Technologies: Python, Django, HTML, CSS, Bootstrap, SQLite, Razorpay, BigShip
Live Link: minenutritionworld.in

- Developed a Django-based e-commerce application with product catalogue, search, category filtering, sorting and product detail functionality.
- Implemented user authentication, address management and a session-based shopping cart with quantity management.
- Designed database models for products, carts, orders and order items using Django ORM, including checkout and order-status management.
- Integrated Razorpay for online payments and BigShip for shipping operations, and deployed the application using Nginx and Gunicorn.

EXPERIENCE / INTERNSHIP

Kalam Pragati MakeX Internship — Autonomous Robotics

Era Foundation × Dr. A.P.J. Abdul Kalam Technical University (AKTU) | Aug 2025 | [Certificate]

- Completed a one-month internship focused on Autonomous Robotics.
- Gained practical exposure to designing, programming and implementing autonomous robotic systems.

ACHIEVEMENTS & ACTIVITIES

- **1st Prize – Quiz Competition:** Secured 1st Prize at Dr. M.C. Saxena College of Engineering and Technology and received a ₹10,000 cash prize. [Certificate]
- Smart India Hackathon 2025: Participated in Smart India Hackathon 2025 and cleared the first round.
- **Full Stack Web Development Training:** Completed a 90-hour Full Stack Web Development training program. [Certificate]

CODING PROFILE

LeetCode: Solved 150+ problems, primarily practicing Arrays, Strings, HashMaps and Linked Lists.
